

The 43" Digital Menu Display allows you to display digital content over static posters. The screens are designed to be fixed either landscape or portrait. These screens do not look like a traditional wall mounted television, they are sleek, slim and ultra slim bezel.

These displays are ideal for enhancing your current menu boards or waiting areas where you have multiple list to display. Great for bringing price list to life and ideal for Quick Service Restaurants.

Locations for this type of display include Restaurants, lobbies, dentisit, opticans, cafes, bars, coffee shops.

Each display comes with an inbuilt media player either Plug and Play, Android or Windows depending on your preference. The displays have inbuilt high powered speakers. The displays used are designed for 24/7 use and are the latest 1080p LED high end panels.

FEATURES
